

CRUISE Elegance Marine Refrigerators

The ultimate combination of style and technology

isotherm

The CRUISE Elegance Marine refrigerators are available in four sizes starting with 42 up to 130 litres capacity. They convince with their infinite design opportunities as the door panel and the handle can be easily customized according to the customer's expectations. The result: a completely in line interior boat design. Choose from several door fronts: silver as standard, white, black, teak, wenge and white oak as options. Full custom design available on request (ex. carbon look).

All CRUISE Elegance fridges are ready for the installation of Isotherm Smart Energy Control, (the location of the sensor is pre-configured in the cabinet), a revolutionary energy saving control system that allows savings up to 50 percent*. This adds up to the already low power consumption of these highly insulated fridges.

- Secop BD Micro compressor technology
- Ventilated condensing unit easy to remote
- Total back flat cabinet, allowing easy product installation
- Easy-fix solution for fast installation
- Innovative Vent-Lock system
- Isotherm Smart Energy Control and ITC ready units
- White inner LED light
- New inner lining with adjustable shelf
- New evaporator design with stainless steel door
- Extra-thick insulated door
- Easy to use handle, with optional branding possible
- Customizable door and handle

*Over 24 hours measurements according to the Standards ISO 15502:2005 and EN 153:2006 on Cruise 130 Elegance loaded with with 24 kgs. of food.

Technical specifications

Type	Gross volume (l)	Dimensions H x W x D (mm)	Weight (kg)	Power consumption (W/24 hours)	Danfoss/Secop compressor type	Freezer -6°C / 21°F volume in l
CR EL 42	42	525 x 380 x 452* ⁽¹⁾	15	285	BD1.4F	4
CR EL 49	49	525 x 380 x 452*	17,2	265**	BD35F	4
CR EL 65	65	528 x 450 x 470*	19,1	275**	BD35F	4
CR EL 85	85	625 x 475 x 500*	21,9	368**	BD35F	6
CR EL 130	130	750 x 525 x 505*	23,1	418**	BD35F	6

(1) Depth 345 mm with remote compressor

* Dimensions (to be added) + 50 mm door's depth

** Power consumption can be reduced by up to 50 % with the use of an Isotherm Smart Energy Control Kit

Power consumption W/24 h in operation on 12 V with +5°C in the refrigeration space, ambient temperature +25°C according to the Standards ISO 15502:2005 and EN 153:2006 in operation on 12 Volt with +5°C in the refrigeration space, ambient temperature +25°C according to the Standards ISO 15502:2005 and EN 153:2006

Innovative Vent-lock system:

A special feature of the CRUISE Elegance fridges is the innovative Vent-lock system preventing the formation of mold while the fridge is out of operation. The simple, invisible mechanism is located in the door.

Easy fit system for frameless installations:

All CRUISE Elegance fridges are especially convenient to install thanks to their easy-fit installation solution. The new fixation system allows an easy fix of the cabinet directly from the interior of the fridge. An innovative internal bushing structure prevents the crushing of the insulated side wall. Outer frames are available as an option.
